

Multi-Stage High Pressure Centrifugal Pump

Multi-Stage High Pressure Centrifugal Pump

MPC Multi-Stage High Pressure Centrifugal Pump efficiently transfer fluids in demanding applications, using a series of impellers to achieve substantial pressure outputs. Ideal for industrial processes and water supply systems

For Industries

Sugar Industries

Oil & Gas Industries

Chemical Industries

Power Plant

Steel Plant / Mills

Alcohol / Distillery / Ethanol

Textile Industries

Material of Construction

Suction / Discharge Casings: | Cast Iron GG25/SS 316

Stage Casing: | Cast Iron GG25/SS 316

Impeller: | Cast Iron GG25/SS 316

Diffuser | Cast Iron GG25/SS 316

Shaft | Stainless Steel

Casing Wear Rings: | Cast Iron GG25/SS 316

Shaft Protecting Sleeve: | Stainless Steel 316

Main Applications

Boiler Feed Water

Process Water

High Pressure Cleaning

Boosting of Water

Technical Data

S:NO	Model	Pump Size mm	Capacity upto M3/Hr	Head upto Meter	Bar/Kg / cm ²	RPM
03	BRP - 65	80X 65	50	350	35	2900
05	BRP - 100	125 X 100	150	350	35	2900
06	BRP - 125	150 X 125	200	350	35	2900
07	BRP - 125	150 X 125	300	350	35	2900
