

Vertical Turbine Pump

Vertical Turbine Pump

Vertical Turbine Pump, a product of **Majeed Pumps Company**, is a testament to innovation and efficiency. Designed for deep water extraction, it features a powerful motor and an elongated shaft with a submerged impeller, ensuring optimal performance. Its robust construction guarantees longevity, making it a reliable choice for both agricultural and industrial applications. This pump is not just a product, but a solution for sustainable water management, addressing the challenges of water scarcity. With Majeed Pump Company, you're investing in a product that combines technology, sustainability, and efficiency.

Material of Construction

Discharge Head:	Cast Iron / Fabricated
Suction Piece:	Cast Iron / Stainless Steel
Discharge Piece:	Cast Iron / Stainless Steel
Intermediate Bowl:	Cast Iron / Stainless Steel
Impeller:	Bronze / Stainless Steel
Pump Shaft:	Stainless Steel
Column Pipe:	Mild Steel
Column Shaft:	Stainless Steel

For Industries

- Sugar Industries
- Oil Industries
- Chemical Industries
- Alcohol Distillery
- Water and Sewage Board
- Textile Industries
- Public Health Eng. Department

Main Applications

- Water Supply | Irrigation | Cooling Tower | Lowering of water ground level
- Spray Ponds | Sea Water & Raw Water Intake | Condenser Water Circulation

Technical Data

S:NO	Model	Pump Size mm	Capacity upto M/HR	Head upto Meter	Efficiency $\eta\%$	RPM
01	VIT 8D	125 X 125	80	5	73	1450
02	VIT 8B	125 X 125	60	6	78	1450
03	VIT 10D	150 X 150	160	8	79	1450
04	VIT 10B	150 X 150	130	9	79	1450
05	VIT 12D	200 X 200	300	12	81	1450
06	VIT 12B	200 X 200	250	14	78	1450
07	VIT 14D	250 X 250	550	15	78	1450
08	VIT 14B	250 X 250	350	20	78	1450
09	VIT 16D	300 X 300	800	18	80	1450
